

Dear Paul, I hope you well, I have reviewed the document from the environmental health and all is acceptable apart from the first condition which states that alcohol can only be served until 11pm.

Subject: Premises Variation - 8 till Late

Dear Sir/Madam

Re: Licensing Act 2003 – Application for a Premises Licence Variation – 8 till Late

I refer to your application of 23/12/2024 for a variation Premises Licence in accordance with the above Act and advise you that representations have been received from Environmental Heath as a designated Responsible Authority under the above Act.

The representations have been submitted in relation to the Prevention of Public Nuisance under the Licensing Objectives and they have suggested conditions to be added to the licence to address their concerns. Copies of their representations are enclosed.

As representations have been submitted, we are required to convene a hearing to which all parties would be invited. In the event that you agree the conditions to be proportionate and reasonable a hearing may not be considered necessary. Please advise me in writing before last date for representation on the 20/01/2025 of whether or not you find these acceptable. You may wish to take legal advice on this before responding.

Furthermore, you are advised that your application may be subject to further comment and/or representation from other Responsible Authorities or Interested Parties up to the expiry date of the consultation period for this application.

Should you have any queries relating to this matter, please contact the Licensing Section.

Yours faithfully

Paul Smith
