

## Appendix 1 – Tables of Proposed Charges

The proposed price increase would affect motor vehicles of all emissions bands, except where the emission band is a base rate set to current prices from which subsequent emission bands increase which includes:

- annual Business and Resident permits (emissions band 1-75 g/km);
- annual Resident permits for motorcycles (electric motorcycles)
- short stay Business permits and Resident Visitor permits (electric vehicles);
- and Paid for Parking (electric vehicles in current tariff areas 2, 3 and 4).

The Air Quality Surcharge (proposed under Amendment A2) would also be set at higher levels than the existing Diesel Surcharge. The Air Quality Surcharge is applied to Resident, Visitor, Business, Doctor, and Car Club Permits and Paid for Parking. The air quality surcharge would apply to petrol vehicles that do not meet the Euro 6 standard (first registered prior to September 2015) and diesel vehicles that are not Euro 6d and Euro 6d-TEMP compliant (first registered prior to September 2019). The surcharge would be an additional 25% of the compliant permit price for petrol vehicles and 50% of the compliant permit price for diesel vehicles. This would result in increases in the charges and fees paid by older petrol and diesel cars / vans.

Product Type	Current Tariff Bands	Proposed Tariff Bands
<b>Resident permits</b>	Electric 1-120 g/km 121 – 150 g/km 151 – 185 g/km 186 – 225 g/km Over 225 g/km	Electric 1 – 75 g/km 76 – 120 g/km 121 – 150 g/km 151 – 185 g/km 186 – 225 g/km Over 225 g/km
<b>Business, Car Club, Doctor permits</b>	No emissions bands	
<b>Sessional Products (Paid for Parking, Hourly Business permits, Visitor permits)</b>	No emissions bands	Electric 1 – 120 g/km Over 120 g/km

**Table 3: Proposed Charges for Business Permits for Doctor Surgeries & Practices**

It is proposed that the permits issued to Car Club and Doctor permit applicants be referred to as a 'Business' permit, with the proposed amendments A1-A3. This proposal is aimed at reducing the administrative costs relating to these products and to simplify the parking offer. However, eligible doctor surgeries will be issued at a 22% reduced charge at all tariff bands post full implementation.

DOCTOR PERMITS

**Table 4: Proposed Charges for Motorcycles**

Non-Electric Motorcycle Band: Prices are set to the lowest carbon emission band for cars / vans for each product except solo motorcycle bay parking. For example, the Resident permit price for motorcycles would be £146.30, which is the same price as cars / vans in the lowest emission band (1 – 75 g/km).

Electric Motorcycle Band: A flat rate is proposed for non-electric motorcycles regardless of their carbon emissions because many motorcycle registration documents (V5C) do not contain their CO2 emissions, and therefore it would not be possible to issue carbon emission-based permits for all motorcycles.

<b>MOTORCYCLES</b>						
	<b>2023/24 Financial Year</b>		<b>2024/25 Financial Year</b>		<b>2025/26 Financial Year</b>	
	Current Charge 23/24 (Round to 0.10)	Current Surcharge 23/24	Proposed charge for Electric	Proposed charge for Non- Electric	Proposed charge for Electric	Proposed charge for Non- Electric
