GLA population forecasts are updated each year, including modelling updates using latest underlying data to a specific 'based' date referenced and intelligence. Estimates are likely to change and are not actuals. **In this analysis two types of GLA forecast are provided; in Camden incorporating latest development data and rounded to the nearest 10, whilst for Other Borough's, latest development forecasts are not available outside the 'home' authority, so alternatively SHLAA forecasts (Strategic Housing Land Availability Assessment) are provided and rounded to the nearest 100 as required by the GLA, please be mindful when using.** Summed totals OR change is based on original numbers, before being rounded. **Camden Borough:** GLA 2022-based Population Projections (BPP), Camden Development, 15-year Migration (May 2024). **Other Borough:** GLA 2022-based Identified Capacity Scenario, 10-year migration (May 2024). © Greater London Authority.

GLA population forecasts are updated each year, including modelling updates using latest underlying data to a specific 'based' date referenced and intelligence. Estimates are likely to change and are not actuals. **In this analysis two types of GLA forecast are provided; in Camden incorporating latest development data and rounded to the nearest 10, whilst for Other Borough's, latest development forecasts are not available outside the 'home' authority, so alternatively SHLAA forecasts (Strategic Housing Land Availability Assessment) are provided and rounded to the nearest 100 as required by the GLA, please be mindful when using.** Summed totals OR change is based on original numbers, before being rounded. **Camden Borough:** GLA 2022-based Population Projections (BPP), Camden Development, 15-year Migration (May 2024). **Other Borough:** GLA 2022-based Identified Capacity Scenario, 10-year migration (May 2024). © Greater London Authority.
