

Meeting	Item	Action	Action by	Status
5/11/24	Cabinet Member Annual Report	In response to support for the work of Change, Grow, Live (CGL), the Cabinet Member for Health, Wellbeing, and Adult Social Care acknowledged that it was a progressive service, embedding preventative, person-centred support. The Chair requested that visits to the service be offered to all committee members.	Director of Health and Wellbeing	Emma Stubbs sent an email to HASC Members on 21/11 with various dates when Members could visit.
5/11/24	Cabinet Member Annual Report	The Executive Director Adults and Health proposed that health colleagues be asked to bring a report on the approach to unwarranted variation by GP surgeries and pharmacies.	Senior Policy and Project Officer	To be scheduled
5/11/24	Cabinet Member Annual Report	The Executive Director Adults and Health explained that Adult Social Care Commissioning had been working with the Royal College of Art to fundamentally rethink how residents are supported in their own homes. While a longer-term relationship was sought, the Royal College of Art was not able to continue providing support pro bono. A budget had been developed to enable the Royal College of Art to check in with the work as it evolved. Insights from the work could be shared with the committee.	Director of Adult Social Care Strategy and Commissioning	In train
5/11/24	Cabinet Member Annual Report	Officers advised that there were few vacancies in the workforce as agency staff were used. There were challenges in how permanent staff were attracted and retained. Work with provider services and HR had significantly reduced the use of agency staff but there was ongoing work to look at this across Adult Social Care. Agreements with other local authorities had capped the amount	Executive Director Adults and Health	In train

		that agency staff would be paid. Data on vacancies and agency numbers could be provided to the committee.		
5/11/24	Cabinet Member Annual Report	The Chair requested a list of all initiatives that had been raised in the previous year, detailing what was completed and what was still being worked on.	Executive Director Adults and Health	The Cabinet Member annual report follows the same format as the previous year. Future annual reports will update on progress of initiatives referred to in previous years.
5/11/24	Cabinet Member Annual Report	Colin Brummage, Camden Disability Action, commended the use of lived experience and power sharing but suggested that the use of a social model lens was missing from the report. As an example, it was queried whether Good Work Camden was being measured according to how it dismantled oppressive labour market structures. A social model lens should shape commissioning of services. It was noted that Camden Disability Action had undertaken a useful coproduction exercise with Good Work Camden but none of the recommendations had been taken forward. The Cabinet Member gave assurances that the adoption of a social model lens in commissioning would be explored. The Executive Director Adults and Health agreed to discuss progress on the coproduced recommendations with Good Work Camden and explore options for taking forward further scrutiny of employment support by people coming through Camden Disability Action.	Executive Director Adults and Health	To be scheduled

5/11/24	Cabinet Member Annual Report	The Chair requested that future annual reports provide information on the work of the Disability Oversight Panel.	Executive Director Adults and Health	The Disability Oversight Panel sits within the portfolio of Cabinet Member for Voluntary Sector, Equalities and Cohesion. It would therefore be inappropriate for the Cabinet Member for Health, Wellbeing and Adult Social Care to include this within their annual report.
5/11/24	Safeguarding Adults Partnership Board Annual Report 2023-24	The Chair noted that during consideration of the previous year's report, it had been requested that training be provided to Members on the safeguarding framework for the protection of adults with care and support needs. The training had not taken place but was still desired by the committee. The Executive Director Adults and Health proposed that the new Independent Chair could lead a training session, including on what the Board does and its relationship with the committee.	Executive Director Adults and Health	The Chair of the Camden Safeguarding Adults Partnership Board, Dr Adi Cooper, will be meeting with Directors and Safeguarding leads on the 12 December 2024 to plan this session for HASC members, with the aim to arrange a training opportunity as discussed early in the new year.
5/11/24	Safeguarding Adults Partnership Board Annual Report 2023-24	The Chair suggested that the annual report could address outcomes from the previous year's priorities. The Executive Director Adults and Health offered to consider how this could be taken forward but emphasised that the annual report was a partnership exercise written by committee.	Executive Director Adults and Health	The annual report structure and content will be reviewed and updated by the new Chair of the Camden Safeguarding Adults Partnership Board. This feedback from HASC will be taken into consideration and shared with statutory partners of the Board when it next convenes in 2025.

5/11/24	Safeguarding Adults Partnership Board Annual Report 2023-24	Concern was expressed about the unnecessarily complex language used in the report. The Executive Director Adults and Health agreed to provide an explanation for the label 'No identified care needs' on page 77 of the agenda pack.	Executive Director Adults and Health	In train
5/11/24	Response to the Screening Panel recommendations	The Director of Health and Wellbeing agreed to provide the committee with data on the number of women being diagnosed with cancer and waiting times for treatment.	Director of Health and Wellbeing	Response shared with the committee on 2/12
5/11/24	Response to the Screening Panel recommendations	Officers confirmed that Camden's Community Champion Programme looks at health issues but the Champions decide what topics to focus on. It was agreed to explore how Members could meet with Community Champions to discuss what feedback they were receiving.	Director of Health and Wellbeing	To be arranged
5/11/24	Response to the Screening Panel recommendations	In response to a suggestion that disabled women be included in the development of the Women's Health Hub offer, the Director of Health and Wellbeing noted that the developing offer could be brought to committee.	Senior Policy and Projects Officer	To be scheduled
5/11/24	Response to the Screening Panel recommendations	An update on work with the learning disabled population to raise awareness of cancer screening would be provided to the committee at a future meeting.	Director of Adult Social Care Strategy and Commissioning	To include in future Cabinet Member update
9/9/24	Update of the Cabinet Member for Health, Wellbeing and Adult Social Care	With regard to safeguarding issues, the Executive Director Adults and Health confirmed that hoarding was a big challenge. It was included in the Care Act within neglect or acts of omission. A report could be brought to committee on work to address hoarding and cuckooing.	James Fox, Senior Policy and Projects Officer	To be scheduled

9/9/24	Update of the Cabinet Member for Health, Wellbeing and Adult Social Care	It was requested that an update be provided on the food mission.	James Fox, Senior Policy and Projects Officer	This item is scheduled for February 2025.
9/9/24	Update on the merger of Royal Free London NHS Foundation Trust and North Middlesex University Hospital NHS Trust	It was agreed that further report would be brought to the committee prior to final decisions to update on the project and detail engagement processes.	James Fox, Senior Policy and Projects Officer	The Chair has agreed that as the NHS have advised there will not be any substantive new developments or information to present to the committee prior to the planned merger date. As the merger is a change in organisational form, rather than any change in service provision, they believe the most effective conversations with the committee would be around the service changes that are made possible by the merger. The design and planning of these will be a focus after the organisations have come together, and they would value HASC's early input into these and the engagement plans to inform them, as that work starts to develop in the New Year. So a future item will come once the organisations have merged.

9/9/24	Update on the merger of Royal Free London NHS Foundation Trust and North Middlesex University Hospital NHS Trust	It was noted that there was no Appendix A included with the paper and it was agreed to circulate to the committee following the meeting.	James Fox, Senior Policy and Projects Officer	Appendix was shared with the committee
9/9/24	Work programme and action tracker	There was a discussion on potentially including a section on housing allocations criteria and support to residents from Adult Social Care and Housing to navigate the systems in the report on neighbourhood programmes in January 2025. The Executive Director Adults and Health noted that Housing Scrutiny Committee received reports on allocations and could invite Health and Adult Social Care Scrutiny Committee to attend and explore those issues further.	James Fox, Senior Policy and Projects Officer	Housing Scrutiny have an item on allocations policy scheduled for their meeting on 10 th December 2024 – HASC Members are able to attend for this item.
24/7/24	Update on Camden's Commissioned Substance Misuse Services and Support for People Experiencing Homelessness	Officers agreed to arrange a visit for committee members to the substance misuse services.	Emma Stubbs, Head of Drugs, Alcohol and Sexual Health	Emma Stubbs has written to the Committee with suggested dates for a visit.
24/7/24	Update of the Cabinet Member for Health, Wellbeing and Adult Social Care	Officers assured Members that none of those waiting for assessment were due to a safeguarding referral or a Deprivation of Liberty safeguard assessment. The numbers of people waiting for an assessment were significantly lower than for a review. Up to date figures on the numbers waiting for entry	Jess McGregor, Executive Director, Adults and Health	Figures will be included in a future Cabinet Member update to the committee.

		and assessment could be shared with the Committee.		
24/7/24	Update of the Cabinet Member for Health, Wellbeing and Adult Social Care	The Chair suggested that issues concerning young people transitioning to adults' services could be brought to committee. It was agreed to bring information to the Committee about care experienced young adults and the Cass report.	Jess McGregor, Executive Director, Adults and Health	Response shared with the Committee 27/8
24/7/24	Final Report of the Committee's Screening and Prevention Panel	The Chair of the Committee welcomed the report and requested that an officer report be submitted to a future meeting responding to all recommendations and providing timescales for actions.	James Fox, Senior Policy and Projects Officer	Scheduled for 5 th November 2024
24/7/24	Insight, Learning and Impact Report Q4 End of Year 2023/24	In response to a request for clarification on the data insight work on young carers, officers agreed to arrange for a written response.	Jess McGregor, Executive Director, Adults and Health	Response shared with the Committee on 27/8
24/7/24	Insight, Learning and Impact Report Q4 End of Year 2023/24	Questions were asked about the structure for five North Central London boroughs working together to model future demand for adult social care services, noting different expectations and costs across the councils. The Director of ASC Strategy and Commissioning explained that cost and the market was explored across the five boroughs. There was also collaborative work on areas such as staffing, the Accelerated Fund on carers, market management and strategic work. Allegra Lynch, Camden Carers, explained that it would be working with the five carers centres across the boroughs on a project around hospital discharge funded by the Accelerated Fund and would be happy to update the committee. The Chair requested that a report be brought	Chris Lehman, Director of ASC Strategy and Commissioning	To be scheduled

		to the committee on the structure of the five North Central London boroughs working together.		
24/7/24	Insight, Learning and Impact Report Q4 End of Year 2023/24	The Chair requested that the Care Quality Commission (CQC) inspection findings for Adult Social Care be brought to a future meeting of the committee.	James Fox, Senior Policy and Projects Officer	To be scheduled when available
27/2/24	Supporting People with Learning Disability in Camden	It was agreed that the Executive Director Adults and Health, Head of ASC Operations and Deputy DASS, and Head of Community Learning Disability Services would meet with Councillor Anna Burrage to discuss any lessons arising from the case.	Jess McGregor, Executive Director Adults and Health	A meeting was held on 12 th March
27/2/24	Update of the Cabinet Member for Health, Wellbeing and Adult Social Care	Accommodation Plan would be launched from April 2024. Chris Lehmann, Head of Adult Social Care Strategy and Commissioning and Deputy DASS highlighted the cross-cutting approach of the plan and commented that a more detailed report would be brought to Committee following the launch.	James Fox, Senior Policy and Projects Officer	Scheduled for 7th January 2025 meeting
23/1/24	The redevelopment of the St Pancras site, what this means to current Camden services and how it relates to wider health and care system transformation	The Chair requested that a report on the Estates Strategy be brought to the Committee.	James Fox, Senior Policy and Projects Officer	An item on the St Pancras Transformation programme will be presented at July's meeting.
23/1/24	The redevelopment of the St Pancras site, what this means to current Camden services	A further report on the proposed timeline for the dialysis unit relocation could be provided to the committee when there was greater clarity.	St Pancras Transformation Programme Director	An item on the St Pancras Transformation programme will be presented at July's meeting.

	and how it relates to wider health and care system transformation			
23/1/24	The redevelopment of the St Pancras site, what this means to current Camden services and how it relates to wider health and care system transformation	An appraisal of the Peckwater option had been shared with the GP practice and the Patient Participation Group (PPG) and could be shared with the Committee.	St Pancras Transformation Programme Director	An item on the St Pancras Transformation programme will be presented at July's meeting.
23/1/24	The redevelopment of the St Pancras site, what this means to current Camden services and how it relates to wider health and care system transformation	In response to a question about why locations in the other boroughs impacted had not been explored, the St Pancras Transformation Programme Director explained that it had been very difficult to find a suitable place for the dialysis service. A design team including clinicians, nurses, doctors and technical experts had looked at a range of options. It was hoped that the dialysis unit would not be an unwelcome addition wherever it was relocated to. The project wanted to work with partners. It was agreed that a further written response to the deputation's questions would be provided. The Chair also requested that the response to the deputation's questions include the options that had been considered and rejected. Roderick Alison, who had brought the deputation to the previous meeting, highlighted that there had been no assessment of the impact of relocating the dialysis unit to the Peckwater Health Centre on existing users of services there or	St Pancras Transformation Programme Director	An item on the St Pancras Transformation programme will be presented at July's meeting.

		suggestion of where the services would be moved to. Consultation on the St Pancras transformation programme had not mentioned relocation of the dialysis unit and the PPG had only been consulted through the Scrutiny Committee discussion on December 2023. It was also noted that the options appraisal appeared to have been driven by financial concerns. The Chair requested that these further points be responded to by the programme.		
23/1/24	Community Connectedness and Friendships	The Chair requested that officers provide a list of groups that the project was working with so that Members could identify any gaps and propose further groups.	Sue Hogarth, Consultant in Public Health	The list was shared with Members
23/1/24	Community Connectedness and Friendships	It was noted that young people aged 16-24, including students and international students, were among the initial target groups but that there were significant challenges in reaching them. Officers acknowledged the challenges but highlighted close contacts between the service and universities who were encouraged to think about social isolation in their mental health work. A communications expert had been embedded in Public Health to support the work. Information on a deep dive communication strategy for young people aged 16-24 could be shared outside of the meeting.	Lucy Lee, Communications and Engagement Lead, Health and Wellbeing	Information on a targeted approach to the 16-25 campaign will be shared after further insight including focus groups with young people.
23/1/24	Start Well Programme Consultation	There were questions about the number of labour ward and neonatal beds per 1000 female population of childbearing age in North Central London and how many there would be in the two options, as well as how this compared to the rest of England. The	Anna Stewart, Start Well Programme Director	Data shared with Cllr Burrage

		Programme Director agreed to provide the data after the meeting.		
23/1/24	Start Well Programme Consultation	Concern was expressed about the impact on the Jewish community should the Royal Free Hospital maternity services be closed. The Programme Director confirmed that the Integrated Impact Assessment had identified Jewish women as a group to be engaged with on the potential impact and mitigations. It was suggested that the Start Well Programme could talk to the community partnerships team at the Council for a list of relevant voluntary and community groups. The Programme Director proposed sharing the existing list used for engagement with the Committee to enable Members to identify any gaps and propose further voluntary and community groups.	Anna Stewart, Start Well Programme Director	The engagement list was shared with the Cabinet Member for Health, Wellbeing and Adult Social Care.
