

<b>LONDON BOROUGH OF CAMDEN</b>	<b>WARDS:</b> All
<b>REPORT TITLE:</b> Building Safety Case Information	
<b>REPORT OF:</b> Director of Property Management	
<b>FOR SUBMISSION TO:</b> Housing & Fire Safety Advisory Panel	<b>DATE:</b> 29 January 2025
<p><b>SUMMARY OF REPORT:</b> This report provides the Panel with information about the Building Safety Case preparation and submission programme for the Council's higher-risk residential buildings.</p> <p><b>Local Government Act 1972 – Access to information</b> No documents that require listing were used in the preparation of this report.</p> <p><b>Contact Officer:</b> Michal Jankowski, Head of Resident &amp; Building Safety, 5 Pancras Square, London, N1C 4AG Tel: 07812658792 e-mail: <a href="mailto:michal.jankowski@camden.gov.uk">michal.jankowski@camden.gov.uk</a></p>	
<p><b>RECOMMENDATIONS:</b> The Panel is asked to note the content of the report.</p>	

Signed:

Director of Property Management

Date: 17 January 2025

## 1. Introduction

### **Building Safety Act 2022 – High-Rise/Higher-Risk Buildings**

- 1.1 The Building Safety Act 2022 requires that the Principal Accountable Person (PAP) registers its higher-risk buildings/high-rise buildings (HRBs) with the Building Safety Regulator (BSR). The Council as the landlord for Council homes is the corporate body that constitutes the PAP, the Executive Director Supporting Communities is the lead operational PAP for Council homes.
- 1.2 HRBs are defined as buildings that contain at least 2 residential units, have at least 7 storeys and/or are 18+ metres high. The Act also requires that PAPs prepare building safety cases for each HRB.
- 1.3 A building safe case is the process of compiling information and supporting evidence to manage the risks of fire spread and structural safety in a higher-risk building and demonstrates that the PAP is taking action to identify, manage and mitigate fire and structural risks.
- 1.4 A building safety case report is a summary of the information and evidence and an explanation of why the physical safety and management arrangements for an HRB mean that it is safe for occupation,

### **Key Building Information**

- 1.5 At registration PAPs are required to submit high-level Key Building Information about potential risk factors at the registered building including:
  - i. Whether it is attached to any other building
  - ii. Details of the use of the building and any change of use
  - iii. The external wall system and roof
  - iv. The structural design type of the building and the main material used in its construction
  - v. The number of storeys below ground level
  - vi. The number of staircases in the building
  - vii. The type of energy supply and energy storage system
  - viii. The evacuation strategy for the building
  - ix. Fire and smoke control equipment.

### **Building Safety Cases**

- 1.6 PAPs must produce building safety cases reports summarising the Building Safety Case evidence, and when called upon to do so, submit them within 28 days to the BSR for assessment. The BSR will issue a Building Assessment Certificate for each

HRB valid for up to 5 years. The BSR has said it will call-in building safety case reports in tranches over a 5-year period.

### Tranche Criteria

- 1.7 The BSR began to call in building safety case reports in June 2024 and have advised that in year 1 they will call in buildings that:
- Are over 50m tall with 11 or more residential units
  - Are between 30m and 49.9m tall with more than 227 residential units
  - Still have combustible Aluminium Composite Material (ACM) cladding
  - Are Large Panel System (LPS) buildings, specifically those built between 1956 and 1973 which have a gas supply, and where it is unclear if structural reinforcement work has been carried out
- 1.8 Whilst the call-in criteria for the remaining 4 tranches years have yet to be confirmed, discussion in Early Adopter working groups with the BSR suggested that the programme may prioritise on the basis of number of residential units and building height as set out below:

	Number of dwellings	141+	74-140	54-73	49-53	26-48	11-25	2-10
Height of building (metres)	50+ m	1	1	1	1	1	1	5
	30-49 m	1	2	2	3	3	3	5
	18-29 m	1	2	3	3	4	5	5

### Building Safety Case Guidance

- 1.9 Information about Building Safety Cases and government guidance about what is required is available on the government website at - [Preparing a safety case report - GOV.UK](#).
- 1.10 The BSR has also published a Building Safety Case toolkit to guide Principal Accountable Persons. The toolkit provides information about the ‘reasonable steps’ that PAPs are expected to take and the evidence they must provide, and gives some examples of what this means in practice including:
- Bin chutes
  - Fire doors
  - Lifts
  - Water ingress
  - Construction
  - Structure – balconies, structural fire protection, structural cracking, risk of vehicle damage
- 1.11 The toolkit can be found on the BSR website at - [Safety case toolkit - Reasonable steps and practical examples](#)

## **2.0 Camden Council Higher-Risk Residential Buildings (HRBs)**

- 2.1 The Council has registered 188 HRBs with the Building Safety Regulator and is working through the preparation of Building Safety Cases in the tranches explained at paragraph 1.8. A list of registered HRBs is on the Council's website at [Registered high rise residential buildings in Camden - Camden Council](#), and the appendix to this report also has a copy.
- 2.2 Building Safety Cases are prepared by Camden's Building Safety Manager team for all the 188 residential HRBs managed by the Council who can only submit a BSC to the Regulator for assessment when invited to do so. At the time of writing the Regulator has called in building safety case reports for 13 Council HRBs, which have all been submitted for assessment. The list is provided below in alphabetical order:
- Bacton
  - Bray
  - Burnham
  - Casterbridge
  - Dalehead
  - Dorney
  - Gillfoot
  - Mary Green
  - Oxenholme
  - Snowman
  - Taplow
  - 9A York Way
- 2.3 The BSR often follows up their initial review of a building safety case report by asking for clarification or additional information about any aspect of the construction or management of an HRB. At the time of writing the Council has responded to requests from the Regulator for all the BSCs it has submitted but has yet to receive a response or a Building Assessment Certificate (BAC) for any of the BSC reports.

## **3. Resident Engagement & Publication of Building Safety Case Reports and Building Assessment Certificates**

- 3.1 Building Safety Case reports must be accompanied by a resident engagement strategy setting out how residents are involved in decisions about the safety of their buildings and kept informed about fire and building safety.
- 3.2 Each HRB has a Building Safety Manager (BSM) who carries out monthly site inspections to ensure buildings are kept safe and identify any safety issues that need to be addressed. They will check safety systems and signage in the buildings, ensure that communal areas and fire exits are not blocked or being used to store anything that could catch fire; the BSM will contact tenants and residents associations and residents of individual HRBs to discuss building safety and the engagement process for their building.
- 3.3 When the Council receives a Building Assessment Certificate from the BSR it will be published on the Council's website alongside the final Building Safety Case

report for the HRB it relates to. A copy of the relevant BAC will be displayed in a prominent place in each building.

#### **4. COMMENTS OF THE BOROUGH SOLICITOR**

- 4.1 The Borough Solicitor has been consulted in the preparation of the report and has no specific comments

#### **5. COMMENTS OF THE EXECUTIVE DIRECTOR OF CORPORATE SERVICES (Finance Comments)**

- 5.1 The purpose of this report is to provide information about the Building Safety Case preparation and submission programme for the Council's higher-risk residential buildings. There are currently no financial implications arising from this report.

#### **6. ENVIRONMENTAL IMPLICATIONS**

- 6.1 There are none.

#### **APPENDICES**

Camden Registered HRBs.

**ENDS**
