Subject: Re: Sican - 122977 - Hearing Scheduled

To: Samina Khan

Good morning,

I realise that the period for the submission of representations on the matter has expired, but hope that additional evidence may be taken into consideration ahead of the hearing.

Last Saturday, 18 January, from around 11pm and well into the early hours, a particularly disruptive gathering of Sican customers took place along Whitfield Street. Evidently intoxicated after the bottomless drinking session at the establishment, a group of them gathered outside our block at 11 Whitfield Street, noisily revelling, interfering with residents' cars, throwing a heavy ball around. At some point they even managed to get into the communal area of the building and stayed there for around 15-20 minutes.

Could this please be taken as an illustration of the fact that Sican are either unwilling or unable to control the behaviour of their clientele.

Best regards,

Yuri Ananikian
