17	Governor		X	X	I believe this is a positive move that will serve the children, teachers and local community in the years to come. I also believe that under strong, progressive and focused leadership the school will definitely thrive not just survive

25	Governor		X	X	Best thing for both schools and its community. Children and parents will have consistency throughout their school life.
26	Parent / Carer Member of the Community	X	X	X	My daughter has attended the Infant school and is currently in year 3 of the junior school. To me the amalgamation of the schools makes perfect

					<p>sense, considering that the year 3 class is made up almost completely from pupils who have moved up from the year 2 class in the infant school.</p> <p>Furthermore, with the arrangement of the playgrounds, and the dinner hall there is already an overlap between the two.</p> <p>It would also make it easier with families who require additional support / needs as the school would already be aware of the situation and wouldn't need to all be explained / processed / planned again.</p> <p>From a pupil's perspective, I also believe that it would remove the daunting prospect of changing schools as the teachers would be interchangeable and familiar with the pupils and give better continuation / transition.</p>
27	Parent / Carer		X	X	<p>My children have attended both schools and there is already a good amount of collaboration between them, which is beneficial to the students. They will not need to go through the difficult transition between schools even though it is still a jump between year 2 and year 3</p>
