| G2               | Ensuring there are good quality childcare places<br>for children 0-4 of working parents to take up<br>their 30 hours funded place by September 2025 -<br>Number of places             | Bigger is better                                    | 457                 | 5%               | N/A            | N/A            | 281 new places<br>created   | 330 new places<br>created<br>(at the end of Spring<br>Term 2025)              | NA - point in time  | N/A                    | N/A  | We have created 330 Places that are operational for children<br>of 0-4 working parents.<br>Money has been awarded to create an additional places<br>across Sandwell but this will require building work and<br>expansion in the summer term and the places will be offered<br>in September.  | People<br>(Children and Educatior |
| 63               | To ensure that all working parents of children<br>aged 4-11 have access to wraparound childcare<br>during term if they require It - Number of new<br>places created by September 2025 | Bigger is better                                    | 1,444               | 5%               | N/A            | 704            | 377<br>(337 new places<br>were funded,<br>40 extended hours<br>placed have been<br>secured) | 449<br>(379 new places<br>were funded 70<br>extended hours<br>places secured) | NA - point in time  | N/A                    | N/A  | The target is made up of new places targets and extended<br>places targets. The new places target was set by the DF at<br>529 initially, and this has been reduced to 405. The extended<br>places remains at 1,039. The new overall target has reduced<br>from 1,568 to 1,444.<br>In April the Sandwell Local Authority plan was submitted and<br>moderated by Hempsall's. This plan was then submitted to<br>DFE and no further questions were asked of our report or any<br>further information needed. At that point we created 379<br>mew full wap around places with a further 70 extended hours<br>places created. The take up of these places will be monitored<br>in the coming weeks and months haed. We know that some<br>areas in Sandwell may have more places created than the<br>actual take up (Smethwick is one area wa are dosely<br>monitoring) but we will be keeping a close eve on how the<br>data unfolds. We do have some funding left over from our<br>or will be used to provide the sustainability of places where it is<br>needed.  | People<br>(Children and Education |
| G4               | Educational Attainment Sandwell All Pupils –<br>attainment at the expected level or above in<br>reading, writing and maths at KS2   | Bigger is better                                    | 59%<br>(AY 2023/24) | 2ppts            | Annual         | Annual         | Annual  | Annual  | 59%<br>(AY 2023/24) | 56%<br>(AY 2022/23)    | 2023/24 AY<br>Provisional<br>Regional: 59%<br>National: 61%<br>Stat Neigh: 60% | Performance now in line with the target and in line with<br>regional comparators.  | People<br>(Children and Educatior |
| 65               | Educational Attainment Sandwell All Pupils - KS4<br>attainment of English and maths at Grade 5 or<br>above  | Bigger is better                                    | 40%<br>(AY 2023/24) | 3ppts            | Annual         | Annual         | Annual  | Annual  | 35%<br>(AY 2023/24) | 35%<br>(AY 2022/23)    | 2023/24 AY:<br>Regional: 42%<br>National: 46%<br>Stat Neigh: 42%               | Published data indicates that Sandwell school performance at K54 English and Maths at grade 5 or above still remains below National figures, with the gap similar to previous years (currenty -119). Performance in English was at grade 5 or above was 55%, 15% above that in maths at 40%, with outcomes in English bay at the English bay at grade 5 or above was 55%, 15% above that in maths at 40%, with outcomes in English bay at school theorem of the english demonstrating an improving trend. Improving trainent in both subject areas remains a priority, but particularly in maths. Priority Education Investment Area (PEA) funding, one strand of which focused on maths has now come to an end. The Directorate is looking at how support to schools can be widened and improved across the borough and is developing an Education and School Improvement Strategy. More resource has been put into Peer-to-Peer support for schools rough and the process of updating webpages so that schools have clear guidance on what offer of support is available, both core (available to all) and enhanced (either grant funded or a small financial contribution required). Services are also investigating other sources of potential funding external to the council and looking at funding options internally. Maths Hubs (a network to develop and spread excellent practice) will continue to support all eligible schools. | People<br>(Children and Educatior |

The team began new working practices on 1st<br>April 2025 and significant improvements have been seen. A<br>backlog contractor has been procured and is on track to be<br>mobilised in May 2025. This contractor will complete all backlog<br>repairs raised prior November 2024. Results for non-urgent works<br>are expected to decrease as of backlog jobs are completed.<br>Performance will be monitored separately for works excluding the<br>backlog.   | Place<br>(Housing)     |
| L16              | Number of long term empty homes brought into<br>use   | Bigger is better                                    | Q4 (Cumulative) = 40 | 5%                  | 8   | 10  | 27  | 41  | NA - cumulative | 30  | N/A   | As noted in previous quarters, the team have been working on<br>160 properties/ cases at various stages of engagement and have<br>seen significant increases in long term empty properties brought<br>back into use over the course of the year and have now achieved<br>the target. The data clearly shows this pattern with a significant<br>step change from quarter 2 at 10 properties in total, to 27 at end<br>of quarter 3 and 41 at the end of quarter 4. The 41 properties<br>bought back into use means 116 bedroom spaces are now<br>occupied. Of the 41 properties, 21 are now rented out to tenants<br>to help meet the housing demands in Sandwell and if these have<br>prevented families entering temporary accommodation, this<br>would deliver a saving of approx. £157,000. The remaining are<br>sold to new families. There is more than sufficient scope within<br>the active cohort to hit future years targets, however, with all<br>empty properties there is a lead in time from the point of the<br>officers initial involvement to any relevant actions delivering<br>outcomes, be these through positive interventions or through<br>enforcement activity. | Place<br>(Housing)     |

| L20              | Total households in Temporary Accommodation<br>(TA)   | Smaller is better                                   | 250    | 5%                  | 219                                       | 236                                       | 242                                      | 243  | N/A    | 193                 | Qtr. 2 24/25 per<br>1000 properties<br>Sandwell - 1.65,<br>National Average<br>5.21, West<br>Midlands Average<br>3.37  | The council still fares very well when compared to the all England<br>rate of households in TA per 1000 households, performing at one<br>third of the national rate and significantly better than the regional<br>comparator. Due to the demand increases referenced in previous<br>quarters the number of households in TA has increased by 69%<br>over 2024/25 when compared to the previous year. This stabilised<br>over the previous 6 months but still at a much higher end position<br>-however, for the first time in 18 months we are within the<br>targets set and even saw a reduction in households in TA during<br>March when compared to February 2025. This is the first<br>reduction in almost two years. A range of activity is underway to<br>limit the need to use TA and even eliminate the use of B&B. This<br>service completed a successful tender for interim accommodation<br>in the private rented sector during quarter 4 to move families out<br>of Bed and Breakfast Accommodation. Through this tender the<br>service has secured 100 units to reduce the use of B&B from 140<br>households to only using B&B accommodation. Not only will<br>this ensure that families have more space and access to self-<br>reduriation allow the twen the two models:<br>referenced, the service could save up to £2m this year. | Place<br>(Housing) |

| 121              | Percentage of homelessness cases successfully<br>prevented (under Homelessness Reduction Act<br>duty) | Bigger is better                                    | 60%                              | 5%                  | 60.9%          | 59.8%          | 72.4%             | 75.1%            | 68.0%           | 51.7%                            | Qtr. 2 24/25<br>National Average<br>51.9%, West<br>Midlands Average<br>52.7% | We are consistently and considerably exceeding the various<br>benchmark positions. The service has seen some fluctuation in<br>this measure over the course of 2024 with the main issue being<br>addressing data quality issues. These impacted heavily in late<br>2023 and early 2024 which did not properly reflect the success of<br>our prevention led model. The data quality issues do still exist to<br>a lesser extent but the outturn is now a more truer reflection of<br>performance. The service prides itself on the customer centered<br>model and this has not just meant we perform well on this<br>- national measure but that we also have a TA rate per 1000<br>households a quarter of the national average. This is solely down<br>to successful prevention. There are gaps however and the<br>prevention model has been diluted over 2024 due to the volume<br>of demand we have seen and rising caseloads for each member of<br>the team. The aim for 2025 is for us to return to the pure version<br>of the model and further improve the prevention of<br>homelessness and reduce the use of TA.   | Place<br>(Housing)        |
| L22              | Net promoter score (NPS) for Libraries  | Bigger is better                                    | N/A                              | N/A                 | Annual         | Annual         | Annual            | Annual           | 83 (out of 100) | NA                               | NA   | NPS was gathered at events and activities funded by West<br>Midlands Combine Authority Commonwealth Games Legacy Fund.<br>Surveys were conducted using electronic kiosks, and included<br>textual feedback. The survey question "How likely is it that you<br>would recommend the event and venue?" 345 customers rated 9<br>or 10; 42 customers rated 7 or 8, 40 customers rated 0 to 6.   | Place<br>(Environment)    |
| L23              | The number of library visits in person  | Bigger is better                                    | Q4 = 195,880<br>Annual = 693,628 | 5%                  | 175,726        | 196,015        | 173,238 (544,979) | 185,309          | 730,288         | Q4 - 186,440<br>Annual - 660,599 | N/A  | The target for this quarter has not been achieved. This is mainly<br>due to library closures within this quarter owing to building works<br>related to the Library Plus project. However, the year-end target<br>has been achieved. Welcoming Spaces has contributed to the visit<br>figures.   | Place<br>(Environment)    |
| L24              | The number of community activities & events held<br>in libraries or online                            | Bigger is better                                    | Q4 = 2,677<br>Annual = 10,708    | 5%                  | 2,976          | 3,020          | 3,294 (9,290)     | 3476 (12,766)    | 12,766          | Q4 - 3,071<br>Annual - 10,497    | N/A  | Both quarter 4 (30% above target) and year-end targets (19%<br>above target) have been achieved. Significant additional funding<br>from West Midlands Combine Authority Commonwealth Games<br>Legacy Fund (E150k) enabled us to put on more activity which will<br>be difficult to sustain in 2025-26 without external funding, so<br>focus must be on securing additional funding for 2025-26.   | Place<br>(Environment)    |
| L25              | Over 16 issue figures (physical & electronic to<br>include books, audiobooks, magazines & comics)     | Bigger is better                                    | Q4 = 69,288<br>Annual = 230,960  | 5%                  | 63,059         | 62,887         | 62,824 (187,878)  | 63,741 (246,473) | 246,473         | N/A                              | N/A  | The target for this quarter has not been achieved. This is due to<br>targets set for quarters 3 and 4 (and consequently the year) have<br>been incorrectly set - they are vastly inflated over compared to<br>quarters 1 & 2. Please see Q3 commentary for further<br>information. However, the year-end target has been met, which<br>indicates inaccurate profiling for each quarter.   | Place<br>(Environment)    |

The main billing period is in March when all<br>the council tax bills are issued and in light of this, we did also put<br>additional staff in the reception area so customers could in effect<br>be stopped at the door, to explain the new council tax reduction<br>scheme changes that were passed by Cabinet in February/March<br>as we were aware that this would create increased footfall where<br>customers would just require an explanation of the change.   | Assistant Chief Executive |
| 129              | The total number of people assisted by the Welfare<br>Rights Service to claim additional benefits<br>(cumulative) | Bigger is better                         | Q4 = 11,000<br>Annual = 11,000 | 5%                  | 2,884  | 5,354  | 8,159  | 10,861   | NA - Cumulative                | 10,434                                    | N/A       | The number of residents assisted by Welfare Rights during the<br>fourth quarter was 2,702. This was 48 below the target of 2,750.<br>The slight reduction in performance in the quarter is a<br>consequence of short-term capacity issues from unplanned<br>absence and also the resignation and retirement of two full time<br>staff members. Despite these staffing pressures, the team has<br>continued to focus on key promotional efforts aimed at increasing<br>uptake of the Winter Fuel Payment and Pension Credit among<br>eligible residents. Over the course of the year, the team's<br>dedication has been evident, assisting a total of 10,861<br>residents—just under the annual target of 11,000. The team<br>surpased the financial gains target, securing confirmed outcomes<br>totaling £21,020,958, exceeding the £20 million goal. | (Housing)                 |
| L30              | % of residents who have are aware of the<br>availability of Social Tariffs (Resident Survey)                      | Bigger is better                         | 40%                            | 5%                  | Annual   | Annual   | Annual   | Annual   | 25%                            | 37%<br>(Sandwell 2023<br>Resident Survey) | N/A       | Reported annually in June (quarter 2). The figure of 25% is based<br>on the 53 individuals who responded that they faced barriers or<br>difficulties in accessing the internet due to the cost of broadband<br>packages.   | Assistant Chief Executive |
| L31              | % of residents feel confident to complete basic tasks in the online world (Resident Survey)                       | Bigger is better                         | 65%                            | 5%                  | Annual   | Annual   | Annual   | Annual   | 84%                            | 62%<br>(Sandwell 2023<br>Resident Survey) | N/A       | Reported annually in June (quarter 2). Performance is significantly<br>better than last year and above target.   | Assistant Chief Executive |
| L32              | Number of Databanks in Sandwell   | Bigger is better                         | 30                             | 5%                  | 10   | 10   | 17   | 17   | NA - Point in time             | N/A                                       | N/A       | Like a foodbank but for mobile data, the National Databank<br>provides free mobile SIM cards to help digitally excluded people<br>get connected. People aged over 18 years old can get mobile data<br>from their local Databank. Performance is below target this<br>quarter but this Pi is not in the gift of the Council and is run by<br>the National Data Bank. It will be included as a contextual<br>measure for 2025/26. For more information see the National Data<br>Bank Website https://www.goodthingsfoundation.org/our-<br>services/national-databank<br>Data source: https://www.sandwell.gov.uk/resilient-<br>residents/databanks   | Assistant Chief Executive |
| L33              | % of contacts received through MySandwell   | Bigger is better                         | N/A                            | N/A                 | 57%  | 57%  | 56%  | 56%  | NA - Point in time             | 55%                                       | N/A       | Self service via MySandwell continues to attract more contact<br>than all other contact channels combined, with 56% of all<br>measured contact. Growth is expected to show a lower rate this<br>financial year compared with previous, due to a greater time<br>investment of the Digital Team into platform infrastructure<br>improvements. Also, new service development project benefits<br>have been more targeted toward improving service performance<br>and customer experience through service efficiency, over channel<br>shift.  | Assistant Chief Executive |

A number of<br>participants are on the 12 week programme and have not yet<br>completed.<br>The contact for this programme is under performing. The<br>Public Health Team have been meeting weekly to address the<br>issues and targeted performance measures have been put in<br>place. The provider has staffing issues, with current waiting<br>time at 8 weeks which is unacceptable for participants. We<br>are currently 4 months into Y2 delivery and will not be<br>extending for the optional Y3 in favour of a new delivery<br>model that is being developed in house. We will continue to<br>work with the provider to improve performance and use the<br>following 8 months to set up the new Adult Weight<br>Management provision. |                                    |
| H10              | ASCOF 2D The proportion of Older people (65 and<br>over) who were still at home 91 days after<br>discharge from hospital  | Bigger is better                                    | 68%  | 66%                 | 69%   | 68%   | 70%   | 65%   | NA                                 | 67%   | 2023/24<br>83.8% - England<br>Average | Q4 saw an increase in the number of people who were<br>admitted into residential /nursing care after reablement<br>which has impacted performance figures. However, the<br>measure does not capture if this was for the same<br>illness/condition that the person was initially in hospital for.<br>It is common for individuals to go to hospital with one illness<br>or condition and come out with another. The service does<br>ensure that reablement is provided to a high standard, as our<br>showcase facility, Harvest View, demonstrates.   | People<br>(ASC)                    |
| H11              | % of council new build homes meeting accessible<br>and adaptable standards (Council house new build<br>programme only)  | Bigger is better                                    | 100%   | 5%                  | Annual  | Annual  | Annual  | Annual  | 100%                               | NA  | NA                                    | The council house new build programme continues to achieve<br>its target of 100%. Of the 12 properties delivered; 11 were<br>built to accessible and adaptable standard (M4(2)) and 1 to<br>full wheelchair compliance (M4(3)).  | Place (Regeneration and<br>Growth) |
| H12              | ASCOF 2E The proportion of people who receive<br>long-term support who live in their home or with<br>family   | Bigger is better                                    | 70%  | 66%                 | 59%   | 72%   | Part 1 87% - LD<br>service users aged<br>18:64;<br>Part 2 - 70% - all<br>clients aged 18+ | Part 1 88% - LD<br>service users aged<br>18-64;<br>Part 2 - 69% - all<br>clients aged 18+ | NA - Cumulative                    | 86% (LD<br>service users<br>only); NA for<br>Part 2 |                                       | Definition for ASCOF 2E has changed for 2024/25. Current<br>performance cannot therefore be compared to past<br>performance. No RAG has been provided for this indicator as<br>we intend to baseline with the new definition to determine if<br>the target set is correct.<br>From 2024 to 2025, this metric has been expanded into 2<br>parts. Clarification was published in Q3: from this point the<br>metric will be shown as below :<br>part 1 - the proportion of people who received long term<br>support with a primary support reason of learning disability,<br>who live in their home or with family (people aged 18 to 64)<br>part 2 - the proportion of people who received long term<br>support who live in their home or with family (all clients,<br>disaggregated by age: 18 to 64 and 65 and over).                                      | People<br>(ASC)                    |
| H13              | ASCOF 1c Quality of Life of carers  | Bigger is better                                    | N/A  | N/A                 | Annual  | Annual  | Annual  | Annual  | N/A                                | N/A   | N/A                                   | This is collected and reported bi-annually and there will not<br>be any results for 24/25  | People (ASC)                       |
| H14              | ASCOF 1E Overall satisfaction of carers with social<br>services (for them and for the person they care<br>for)  | Bigger is better                                    | N/A  | N/A                 | Annual  | Annual  | Annual  | Annual  | N/A                                | 28.40%  | N/A                                   | This is collected and reported bi-annually and there will not be any results for 24/25   | People (ASC)                       |
| H15              | ASCOF 3B The proportion of carers who report<br>that they have been involved in discussions about<br>the person they care for                                       | Bigger is better                                    | N/A  | N/A                 | Annual  | Annual  | Annual  | Annual  | N/A                                | 66.70%  | N/A                                   | This is collected and reported bi-annually and there will not be<br>any results for 24/25  | People (ASC)                       |
| H16              | ASCOF 4A The proportion of people who use<br>services who feel safe   | Bigger is better                                    | 76.70%   | 73%                 | Annual  | Annual  | Annual  | Annual  | 76.70%                             | 76.70%  | 71.1% - 2023/24<br>England Average    | Performance remains the same as last year and on target.   | People (ASC)                       |
| н17              | ASCOF 4b The proportion of section 42<br>safeguarding enquiries where a risk was identified<br>and the reported outcome was that his risk was<br>reduced or removed | Bigger is better                                    | 95%  | 93%                 | 95%   | 97%   | 98%   | 98%   | NA - Cumulative                    | 95%   | N/A                                   | This is also reported and scrutinised by the Statutory<br>Safeguarding Adults Board. There's no benchmarking for<br>ASCOF 48. The definition for the measure changed in April<br>2023, however, comparative data for 2023/24 has not been<br>published. Performance remains above target in Q4.  | People<br>(ASC)                    |

In this quarter, the service supported 219 businesses.<br>Of these. 116 (53%) of enquiries were related to pre-start and<br>start-up support, assisting new businesses in getting established.<br>50 (27%) of the enquiries concerned financial assistance, marking<br>an increase from the previous quarter and highlighting the<br>continued demand for funding support in Sandweil. 23 (10%) of<br>the enquiries focused on business advice and guidance. 21<br>(10%) related to a range of topics including Decarbonisation Net<br>Zero, land and property, environment, export, Innovation, pre-<br>start advice, social value, supply chains, and workforce<br>development.  | Place<br>(Regeneration)   |
| T10              | Business receiving Financial Assistance or Grants                                  | Bigger is better                                    | Q4 = 10 Annual = 40               | 5%                  | 21             | 24                               | 17                                | 46             | 108  | 103                    | N/A       | Both quarter 4 and year-end targets have been achieved and<br>exceeded. In this quarter, a total of 46 grants were successfully<br>awarded to businesses operating across the Sandwell area. These<br>grants were allocated through a range of support programmes<br>designed to meet varying business needs, including: SME Grants<br>scheme (11)- Decarbonisation Net Zero (DN2) project (6) and<br>the Start-Up Grants Programme (29). These initiatives aim to<br>provide targeted financial assistance to help local businesses<br>grow, innovate, and adopt more sustainable practices. The<br>funding for these grants was made possible through the UK<br>Shared Prosperity Fund (UKSPF), which continues to play a<br>crucial role in supporting economic growth and resilience within<br>the region. The grants have helped businesses to unlock new<br>opportunities, reduce carbon emissions, and strengthen their<br>operational foundations during a pivotal time for local<br>enterprise. | Place<br>(Regeneration)   |

| 034              | Care experienced and Children in Care<br>apprenticeships filled (borough wide)   | Bigger is better                                    | 9       | 1                   | 7              | 12             | 16             | 17             | NA - cumulative    | N/A                    | N/A  | More Care Experienced Young People (CEYP) are choosing<br>apprenticeship opportunities as a pathway. Engagement in<br>apprenticeships has improved due to incentives such as paid<br>work experience. Also, CEYP apprenticeship ambassadors are<br>sharing their experience.   | People<br>(Children and Education) |
| 035              | Care experienced and Children in Care<br>apprenticeships filled (Council)  | Bigger is better                                    | 5       | 1                   | 4              | 5              | 5              | 6              | NA - cumulative    | N/A                    | N/A  | We currently have 6 Care Experienced Young People (CEYP) on<br>apprenticeships. There were 6 apprenticeship offers made to<br>CEYP in Q3, starts have been delayed due to issues including:<br>provision of suitable 10 for H nonboarding, suitable (local)<br>accommodation to the apprenticeship, and waiting to move<br>into a property.  | People<br>(Children and Education) |
| 036              | Children in Care Work experience placements<br>(Council)   | Bigger is better                                    | 15      | 1                   | Annual         | Annual         | Annual         | Annual         | 11                 | N/A                    | N/A  | These are work experience placements as part of the<br>ringfenced' CEVP vacancy recruitment process, which aim to<br>establish suitability for an apprenticeship. Age ranges for these<br>are from 16-22. We showcase the offer at our Metsec drop in's<br>and it is advertised as part of the CEVP offer. We also utilise<br>the work experience offer to encourage the young people to<br>apply for apprenticeship opportunities and currently we are<br>able to offer paid work placements for CEVP who are 18-21.<br>The numbers of CEVP completing work experience has<br>increased since last year. All CEVP who want to complete work<br>experience are able to as opportunities are created around the<br>young person. Some young people are completing multiple<br>work experience placements. Performance will improve will<br>increased demand for these opportunities.  | People<br>(Children and Education) |
| 037              | The proportion of Sandwell Children we Care<br>for with live Housing applications at the end of<br>the previous quarter housed in this quarter | Bigger is better                                    | N/A     | N/A                 | 47.37%         | 56%            | 72.22%         | 66.67%         | NA - point in time | N/A                    | N/A  | The narrative for the housing solutions measures paints a<br>picture of a very difficult housing climate and reducing<br>numbers of council properties becoming available- thus<br>increasing wait times. This measure shows a positive result<br>albeit a slight drop on quarter 3, with almost 70% housed in<br>the timeframe, a significant improvement on the position at<br>the start of the year. The main challenge is the availability of<br>suitable properties and the bids (/bidcs being made by the<br>individuals coupled with the reduced choice due to lower<br>numbers of council properties becoming available. The service<br>is making contact with these individuals to see if they still<br>require housing and what may be preventing them from<br>bidding and addressing some of the disparity between<br>expectation of the types of homes they will secure and the<br>reality. These are having a significant impact on the proportion<br>who have been housed. | Place<br>(Housing)                 |
