<p>Ensure financial management and governance are included in onboarding and manager development programmes, as well as being a feature in appraisals.</p>	<p>None</p>	<p>None</p>	<p>Finance is included in the corporate induction. The leadership and management programme is being rolled out. However the officer governance programme is still in planning phase. There remains a question as to whether the balance of responsibility and activity between finance and service leads is appropriate and there remain capacity and skills gaps in the finance function.</p>
<p>Ensure comprehensive accounts closing process, including review of reconciliation arrangements, to enable statements of accounts to be closed and audited within statutory timescales.</p>	<p>May 2021 statutory recommendation Ensure sufficient resources and skills to support accounts production and skills and capacity to support production of technically sound financial statements. Introduce project management skills to oversee timely production of financial statements and working papers. May 2021 statutory recommendation</p>	<p>None</p>	<p>Further issues have been identified in relation to 2023/24 accounts. A report was taken to Cabinet in July 2025 on the restated outturn for 2023/25 and provisional outturn for 2024/25. A report was taken to Audit and Corporate Governance Committee in July 2025 presenting the provisional statement of accounts for 2023/24, noting that it remains provisional subject to completion of an independent risk-based assurance review. That review is scheduled to complete by the end of August.</p> <p>The commissioners noted in the Cabinet report that failing to prepare and publish accounts or conduct audits for legacy years has posed significant risks, including the likelihood of errors going undetected for several years and</p>

	<p>Develop comprehensive project plan for preparation of accounts ensuring supported by working papers, robust quality assurance and clear ownership and accountability.</p>		<p>hindering future financial planning. Commissioners support the proposal to continue the balance sheet review, noting that whilst it does not represent a formal audit, it is sought to provide improved assurance.</p> <p>The Council needs to ensure it has strong assurance mechanisms to reduce the risk of unforeseen negative impacts on the 2024/25 accounts and the long-term financial risks to the Council. This is addressed in the action above relating to financial systems.</p>

The Council is seeking to move to a more integrated planning approach to align strategic and political priorities within transformation and medium-term financial planning. The success of this will depend on internal and external factors, including the Government approach to multi-year funding and grant allocations for local authorities. The report presented a range of figures on the estimated budget gap for 2026/27 and up to 2029/30 which helps elected members and the public understand the scale of uncertainty, making consultation and scrutiny of proposals challenging.</p>

Review of debt collection processes to ensure debt is collectively effectively and write off policies and procedures are appropriate	<p>May 2024 The Council should develop its corporate oversight to ensure it delivers improvements in economy, efficiency and effectiveness and address the following weaknesses: Lack of understanding and cost comparisons with other similar local authorities</p>	<p>Improving the systems and processes to enable better and evidence-based decision making, including enhancing the data and insight functions, undertaking benchmarking.</p>	<p>The Council has set up a cross council debt board. It also presents reports to Cabinet at least annually on write off to ensure that the Council's accounts correctly reflect the level of debt that can be considered collectable.</p>
Review of reserves position and treasury management arrangements to reduce risk of urgent debt refinancing to preserve liquidity	<p>May 2021 Statutory recommendation Urgent action to address low levels of unearmarked and earmarked reserves, develop MTFS, clear proposals to develop savings requirements and ownership, monitoring and reporting process.</p> <p>July 2021 statutory recommendation</p>	<p>b) A refreshed rolling Medium-Term Financial Strategy, Capital Strategy, and Treasury Management Strategy, aligned with the new TOM and transformation plan and demonstrating the Authority's financial sustainability and resilience, over the period of the strategies.</p>	<p>The Council updated the constitution in relation to treasury management, increasing the level of reporting to Full Council. Audit and Corporate Governance Committee received an update on the Treasury Management Outturn for 2024/25 in July 2025 and this will be presented to Full Council in September 2025.</p> <p>The Council's reserves position has been severely impacted by the restatement of the 2023/24 accounts, and ongoing pressures, which may lead to the Council's having to submit an additional request for Exceptional Financial Support.</p>

Evidenced improvement in report clearance processes, with Executive Directors and DLTs taking responsibility for early engagement with legal and finance to improve quality and timeliness of reports and improve forward planning.	<p>February 2023 – Statutory Recommendation Ensure that for important decisions, sufficient and adequate information is made available to members to support decision made, including a comprehensive business case.</p> <p>May 2024 – key recommendation The council should improve governance arrangements for key decisions, ensuring follow decision-making procedures, by constituted committee, supported by adequate information and</p>	<p>g) Improving the systems and processes to enable better and evidence-based decision making, including enhancing the data and insight functions, undertaking benchmarking.</p>	<p>Quarterly report to Full Council on urgent decisions now includes reporting on Cabinet reports not being published within statutory deadlines. This may be extended to cover all key committees and is a positive step to increase transparency of the issue.</p> <p>Further work is required to understand the barriers to getting good quality reports published, as the commissioners are now not reviewing all reports placing more responsibility on the Council's QA process.</p> <p>Officer training on report writing is included in the officer governance training programme. However, themes such as lack of business cases and issues with procurement and commissioning activity need to be picked up as a wider programme of improvement.</p>

	<p>formally recorded and publicly available.</p> <p>May 2024 key recommendation</p> <p>The Council should develop its corporate oversight to ensure it delivers improvements in economy, efficiency and effectiveness and address the following weaknesses:</p> <ul style="list-style-type: none"> • Lack of understanding and cost comparison with other similar local authorities • Inadequate procurement arrangements. 		
Effective use of Lead Member and Directors' meetings and other internal non-decision-making boards to focus on strategic planning and transformational change.	<p>May 2024 key recommendation</p> <p>Officers and members should continue to work together to deliver financial sustainability in the medium term, including increasing level of reserves, progressing sale of assets, delivering recurrent savings.</p>	<p>Improving the systems and processes to enable better and evidence-based decision making, including enhancing the data and insight functions, undertaking benchmarking.</p>	<p>There has been an improvement in use of LM&Ds meeting, with the chief executive continuing to provide corporate updates and with focused discussions on key risk services. However, there are still situations where reports and presentations are submitted late or just shared in the meeting, making it challenging for participants to engage with the material in advance and come ready to have a constructive discussion. There is also an issue with information updates without clarity on what input officers are seeking from members.</p> <p>There has been an increase in internal boards, covering areas such as risk and a new design authority. However there is still a lack of clarity on what to report and a tendency to expect that things are still reported to CLT. There is also a lack of understanding of the purpose of a</p>

			<p>board, being a consultative forum rather than a decision-making forum. There is a need to understand and identify who the single officer making the decision is for accountability purposes and for that officer to take responsibility for authoring any required significant officer decision report (or author a report to Cabinet or Committee).</p>
Implement a refreshed member development programme reflecting the changes in political groups and committee membership	<p>July 2021 The Council should develop a comprehensive project plan for the improvement in governance arrangements:</p> <ul style="list-style-type: none"> • Commission/learn from any external governance review undertaken with reporting through the Audit Committee • Strengthen Scrutiny and Audit Committee arrangements with external support to members <p>October 2024 The Council should:</p> <ul style="list-style-type: none"> • Ensure the Audit and Corporate Governance Committee considers how it has complied with the mission statement and improves the level of reporting in the annual self-assessment of its effectiveness using the 	<p>To secure as soon as practicable that all the Authority's functions are exercised in conformity with the best value duty thereby delivering improvements in services and outcomes for the people of Slough, focussing in the first six months on an effective internal audit function, with organisational independence, objectivity, separate administrative reporting and a strong functional reporting relationship to the Audit and Corporate Governance Committee, and a review of the action plan for the scrutiny function and Audit and Corporate Governance Committee to accelerate any improvements required in these areas.</p>	<p>A refreshed member development programme has been launched and sessions have started in 2025/26. This has been a mix of internally and externally delivered sessions and those run virtually and in-person.</p> <p>There needs to be a better system for capturing member feedback and considering what the strategic aims are and what value the training is seeking to add.</p> <p>The Audit and Corporate Governance Committee does have an identified training programme informed by a member self-assessment and several sessions have been delivered to support members in their role.</p>

Some members are still concerned about a single committee fulfilling the function of scrutiny, however commissioners also not in their 6th report that the function of scrutiny is reliant on a small number of members. As the committee is set up on the basis that task and finish groups can co-opt members on to them, it is unclear what value will be added by having additional committees set up. It is of note that there was one committee and four panels in 2021 when the Council went into intervention and scrutiny was deemed ineffective. At this point half of all elected members sat on scrutiny.</p> <p>CISC's Annual Report listed its activities and a series of training sessions that had been delivered in year. It also</p>

		<p>improvements required in these areas.</p> <p>reported on 3 task and finish groups, however the timescales for all 3 had slipped and the budget task and finish group did not result in any recommendations being made to Cabinet to inform its recommendation on the 2025/26 budget.</p> <p>The Annual Report includes an assessment against the action plan, however it was difficult to identify what progress has been made against each outcome, including increased resident engagement and evidence that scrutiny is making a difference.</p> <p>The 2024 Member Survey had a moderately higher proportion of Members now agreeing or strongly agreeing with positive statements about scrutiny, compared with the previous survey. However, there is still polarisation.</p> <p>The Committee has self-assessed itself as working well as a group and receiving more briefings to assist it to understand topics and its role. It has also identified improvements, including:</p> <ul style="list-style-type: none">• Recommendations to Cabinet. Even though the committee has made some, there seems to be too few given number of reports that come to the committee.• No public scrutiny work in relation to ASC despite it being our biggest area of spend.• No input from the public into the work of the committee and missing valuable resident feedback/evidence.• Member engagement needs to improve, as a small group of members are doing all of the work.• Attendance by some members

It would be common for this to be reported to Annual Council.</p> <p>This is an area covered by the work by Boston Consulting Group to ensure there is more alignment between corporate and longer-term strategy and service planning, appraisals. <p>Ensure effective member oversight of the Council's transformation programme at formal, constituted and public member meetings, including:</p> <ul style="list-style-type: none"> • Effective monitoring and oversight of any externally commissioned resource • Monitoring and management of financial budgets 	<p>October 2024 key recommendation</p> <p>The Council must devise a transformation programme which is supported by adequate and defined funding which has the ultimate goal of the Council exiting intervention and securing its best value duty. This may include or draw upon improvement or action plans prepared before the date of these Directions. The plan is to set out measures to be undertaken, together with milestones and delivery targets against which to measure performance, in order to deliver rapid and sustainable improvements</p>	<p>An update on the Improvement and Recovery Plan was presented to Cabinet in March 2025 and to Full Council in April 2025. It is planned for an update to be given in September 2025. As part of a briefing to members on the Annual Government Statement, members have clearly identified a need for continued reporting to Full Council on transformation plans to allow members to have collective ownership of the programme and on general improvements in governance of the Council.</p> <p>A strategic partner was commissioned to undertake a time limited review of the current programme and future opportunities. This will be reported publicly to members.</p> <p>The transformation fund is monitored by CLT, however it is accepted that the funds are tight based on the breadth and pace of transformation required.</p>

There must be a focus on deliverable milestones within six months and the Plan should include at a minimum:</p> <p>a) A new Target Operating Model (TOM) that enables both financial stability and the delivery of core services and priorities.</p>	<p>Individual service transformation is also being reported to members as follows:</p> <ol style="list-style-type: none"> 1. Mutual Ventures were commissioned to do a high level review of progress for SCF against the review in 2022. The Leader and Lead Member were interviewed and attended a briefing presentation and the outcome will be reported formally to Cabinet in September alongside SCF's Annual Report. 2. SEND improvement has been reported to Cabinet on a quarterly basis. 3. Housing improvement - there has been limited public reporting on this. 4. Adult Social Care plans and strategies - there is a plan to report to Cabinet in September on the CQC Inspection. 5. Governance improvement – this was reported to Audit and Corporate Governance Committee and Standards Committee in March 2025. The AGS was reported to committee in July 2025, with a review of effectiveness against new CIPFA / SOLACE guidance. 6. Financial improvement – progress has been reported to Audit and Corporate Governance Committee in July 2025 and there is a commitment by officers to continue with public reporting in future.

This review included engagement with residents and benchmarking with statistical neighbours to identify risks and opportunities.</p> <p>The AGS action plan now links to the Best Value themes and there are plans in place to ensure the assessment is more forward looking in the future. This will be assisted by more effective service plans for directorates.</p>

development programme		development, retention, and permanent recruitment.	
Put in place effective workforce development plans for services that are overly reliant on interim staff or with identified skills and capability gaps	None	d) A high-performance culture programme to rebuild trust between staff and the Authority, to include the development of a comprehensive workforce strategy focused on development, retention, and permanent recruitment.	Specific directorates are pursuing restructures and there are some high-level design principles, however the level of detail and presentation of restructures to the Design Authority makes it difficult for the board to consider the appropriateness of the structure against key principles and how the structures fit together across the Council. This is partly linked to a lack of a clear target operating model. At present restructures appear focused on delivering target savings, as opposed to aligned to service delivery needs, succession planning or addressing capability and skills gaps.
Improve completion of mandatory training	None	None	Mandatory training data is presented to directorates for discussion at DLTs and to CLT. There is increased reporting to the Employment Committee, however data on mandatory training was not presented to the June meeting. It is expected that a fuller quarterly update will be provided.
Develop a “permission culture” whereby officers are empowered to take decisions within approved schemes of delegation and governance systems	None	None	More work is required on embedding internal scheme of delegation and supporting staff to take decisions. This needs to be a key aspect of any new target operating model.
