

Appendix H - Comments from Andy Bonham – Senior Environmental Health Officer

Dear Licensing,

I have no objections to this application.

I visited the premises on 9th January and spoke to the applicant.

He has now confirmed the café will operate only within current planning hour restrictions which will limit any operational disturbance to neighbours in the evenings.

He has now also submitted a noise management plan which is acceptable.

I note neighbours' concerns but these have in the main been addressed.

Regards

Andy Bonham
