Title: **Quality and Speed of Major and Non-Major Applications**

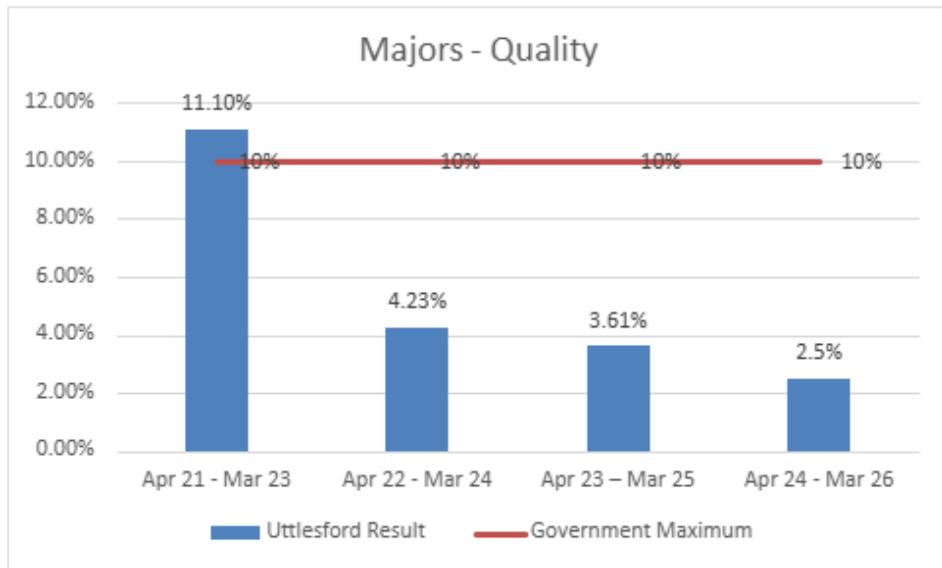

Author: **Dean Hermitage**

Item: **3**

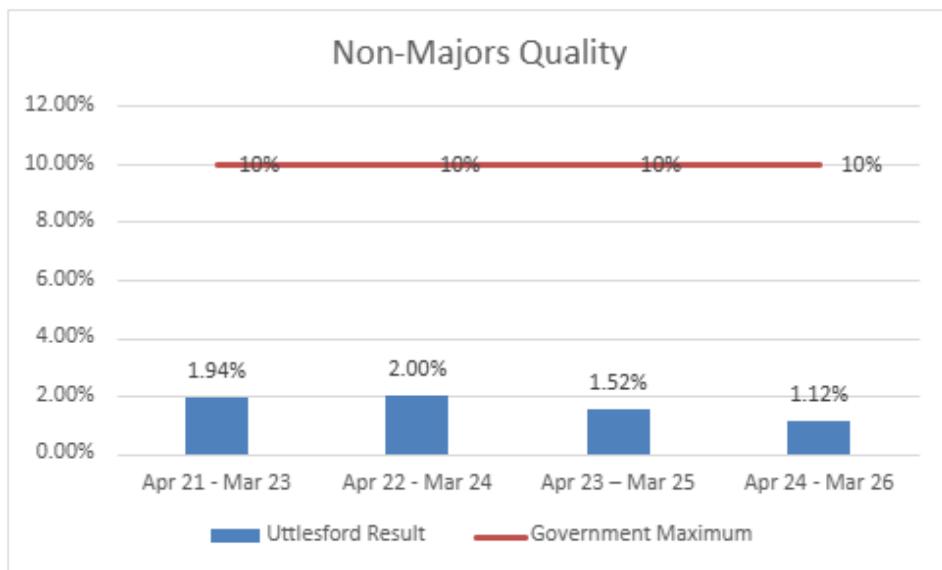

Purpose

1. To report to Planning Committee the applications that have been considered at Planning Committee which contribute to the data considered by the Ministry of Housing, Communities and Local Government (MHCLG) as to whether the Local Planning Authority (LPA) falls within the criteria to be designated.
2. There are four criteria where a LPA may be designated - Quality Major; Speed Major; Quality Non-Major and Speed Non-Major.
3. On the 6th June 2025 the council received a letter confirming that the 'Special Measures' had been removed with immediate effect. The council is no longer designated. This report gives an overview of all four areas where the LPA could fall within the criteria to be designated.
4. 'Quality' of Major and Non-Major applications covers a two-year period plus nine months to allow for appeal decisions. Whilst 'Speed' of Major and Non-Major now covers a period from 1st October through to 30th September. This came into effect in 2024.
5. The Planning Advisory Service provided each Local Authority with a 'Crystal Ball' (basically a spreadsheet) where the data can be added each month/quarter to monitor whether there is any risk of designation.
6. Below shows the four potential designation areas as graphs, quality of major covering from April 2021 through to March 2026; quality of non-major covers a period of April 2021 through to March 2026. Whilst the speed graphs for both major and non-major covers from when the new criteria was announced to cover one year from October 2024.
